

RI: Routing Interface

Hysteresis Activation
and Deactivation

```
graph LR; A[Hysteresis Activation and Deactivation] --> B[RI: Routing Interface]
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The box on the left is white with a black border and contains the text 'RI: Routing Interface'. The box on the right is gray with a black border and contains the text 'Hysteresis Activation and Deactivation'. A black arrow points from the right side of the gray box to the left side of the white box, indicating a directional relationship or flow from the hysteresis process to the routing interface.
